

FC TRANPAD

Transfer paper for custom mouse pads

FC TRANPAD is made of a 120 µm, 115 g/m² paper liner, a 30 µm, 25 g/m² polyethylene layer and a 6 µm composite polymer finish.

Color laser printer or copy machine + heat press

Ideal for white fabric mouse pads

FC TRANPAD gives outstanding color brilliance and good wear resistance. Extremely thin and impalpable.

Insert the transfer paper in the printer's by-pass or drawer and set to thick paper or cardboard printing mode (140-160 g/m²). Multicopy print. Print in mirror mode.

Place the printed side of the FC TRANPAD transfer paper on the fabric side of mouse pad (GA MOUPD 19).

Place a sheet of adhesive-proof tissue paper (AU CFC VELIN) on the plate.

Then:

Air press: 140℃ for 10"- pressure 2atm

3

2

Manual press: 140℃ for 10"- low pressure

Cold peel off. For brighter colors press again with a sheet of adhesive-proof tissue paper (AU CFC VELIN) for 5-6 seconds.

4

If you notice a reduction in the mouse pad's thickness decrease the pressure. For more information please contact your dealer.

Store in a cool dry place.

Do not expose to direct sunlight.

If properly stored the product will maintain its features for at least 2 years.

The instructions on this sheet are merely indicative and contain details concerning tests carried out in our laboratories with our equipment. Do your own testing. The manufacturer will replace defective material but is not responsible for any damage resulting from incorrect use.
